

Series 70: Classic profile shape, easy and comfortable to use

- Light aluminium rectangular profile
- Coated measuring surface protects delicate surfaces
- Easy to clean thanks to the smooth sides and electrostatic powder coating
- Plastic end caps protect the profile against impact
- STABILA installation technology ensures long-term accuracy – measuring accuracy in normal position: ± 0.5 mm/m

Application / Additional features

Type 70 and Type 70-2: Especially suitable for measuring tasks in the fields of joinery, electrical installations, tiling, heating installation and

for DIY enthusiasts.

Type 70-2: The **additional vertical vial** allows quick readings in any position.

Type 70 W: Especially suitable for use in metal construction, for joinery and for DIY enthusiasts. The **rotatable angle vial** allows variable

inclinations to be determined.

Type 70 M: Especially suitable for measuring tasks in metal construction – the craftsman always has his hands free when aligning and adjusting

components. **Rare-earth magnet system** – for high adhesion to metal objects.

Type 70 P-2-2: Ideal for work in the fields of timber frame construction, prefabricated walls, building components, precast concrete parts and

system formworks. The **measuring surface formed from two fixed spacers** bridges irregularities in the material and allows precise measuring, e. g. over warped beams.
